This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

Some ten years ago, while in pursuit of genealogical material, finding the various church and city records incomplete, it became necessary for me to extend my search to the older cemeteries of my native city. It seemed a pity to leave so much information, nowhere else obtainable, to be spoiled and lost by the vandals—time and man. Accordingly, it was copied and is at this time presented to those interested, whether stranger or descendant of those proud or humble persons who have slept so long among us, yet so far apart from our present scenes and activities. This pamphlet is supplementary to material already published in the *New England Register*, but embraces much which is missing in them, covering as it does a broader field, yet taken with records mentioned below it gives us all the vital statistics we may obtain of the early settlers of Portsmouth. In this connection the reader is referred to the following sources of information:

Portsmouth city records; Saint John's Church records; South Parish Church records; Congregational Church records; Newcastle town records; *New England Historical Genealogical Register*, Vols. IX, X, XXIII, XXIV, XXV, XXVI, XXVII.

The modern large cemeteries, as at the third bridge, Newcastle, the South and Catholic cemeteries in Portsmouth, are not included.

An initial letter before each name is used as an abbreviation for the following cemeteries and shows where each person is buried. This is given that lost graves may be located and places visited which need the critical eye and material pocketbook. Portsmouth is always understood except where Newcastle is given:

A. Amazeen Field, N. C.
B. Batson Field, N. C.
C. Cotton Cemetery.
D. Removed Old South Church to South Cemetery.
E. Elwyn Cemetery, Lafayette Road.
F. Frost's Cemetery, N. C.
G. Point of Graves.
H. Hall Cemetery, South Street.
J. John Locke Place, N. C.
L. Langdon Cemetery, Lafayette Road.
M. (Marsh) Tarlton Cemetery, N. C.
N. North Cemetery.
O. Oliver Cemetery, N. C.
P. Pleasant Street Cemetery.
R. Removed Green Street to South Cemetery.
S. St. John's Church Cemetery.
T. Tarlton Field, N. C.
U. Upper Church, N. C.
V. Vennard Field, N. C.
